

FROM ORGANIC AND SLOW FOOD TO GREEN PLANET

Europe House, Skopje

May 3th, 2022

Programme

Objectives

This project aims to raise awareness of the need for innovative forms of food production that will be free from the use of pesticides and other chemicals that are potential pollutants to the environment in both air and soil. The conference will provide opportunities to develop Interactive debate among invited speakers to discuss food handling practices along the food chain and the importance of adhering to good agricultural and manufacturing practices as a foundation of ensuring safe and healthy environment
